

Community Treatment Orders

(Supervised Community Treatment)

A One Day or a Half Day Course According to Staff Needs

Community Treatment Orders will be introduced in October 2008 and have an impact on Primary Care Trusts and their staff. This course examines in-depth, the new power of CTOs and consider at how they will be used in practice.

Staff need to know how the new Act will affect them, their working practices and the people to whom they provide services. This course provides the essential knowledge staff need in order to work with and implement CTOs effectively, ensuring compliance with the legislation. Practical issues in using the new power are considered and addressed.

WHO IS THE COURSE FOR?

Staff working in Primary Care Trusts – nurses, psychologists, allied health professionals, doctors, managers.
